FFP3 Dust Mist Fume Respirator with Valve

Product Information

This dust mist respirator is an EN149 compliant dust mask which has been designed for a variety of applications which involve high concentrations of dust, fumes and water-based mists and protects against the inhalation of these. It is effective enough to be used in areas where the concentration of such contaminants is up to 20 times the Workplace Exposure Limit.

Technical Information

Colour: White

Protects against fine toxic dust, fumes and water-based mists
