T13A 250V~

Just for you!

We have done our homework and repositioned ourselves for you.
Because we know what you need:
the right products, at the right time, at the right location, at the right price.

brennenstuhl®

_ smart technology.

„He who knows his destination finds the way"
Laotse

When he lay the foundations of his company more than 50 years ago,
Hugo Brennenstuhl knew his goal.
A continuous focus on the needs of the customer and the tireless pursuit
of perfection have borne fruit.
This is a success story that has continued with the third generation.

You, our customers, are at the heart of our actions. The strong growth of our
company requires physical expansion. Whether in Germany or in the world,
brennenstuhl® is outgrowing itself. Which is why we need space! Space for the
development and implementation of our new ideas. Space for rigorous and modern
quality assurance. Space to offer our customers the best possible service.

The growth that makes our expansion needed, we owe to you - and for this we thank you!
The expansion of our logistic centre opens up new possibilities and enables new goals.
Together with you, we want to shape the future and we look forward to working together.

We hope that you enjoy looking through our new catalogue and new products,
which we are sure will offer up many possibilities.

Key to cable quality

H O 5 V V - F   3 G 1,5
① ② ③ ④   ⑤   ⑥ ⑦ ⑧
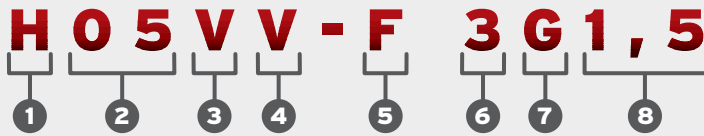

❶ Definition

H = Harmonised cable
A = Nationally recognised cable

❷ Nominale Voltage (Volt)

03 = 300 / 300 V
05 = 300 / 500 V
07 = 450 / 750 V

❸ Isolating Sheath

V = PVC
R = Natural or synthetic rubber
S = Silicone rubber
B = Synthetic rubber

❹ Outher Sheath

V = PVC
R = Natural or synthetic rubber
N = Neoprene
J = Glass fibre
T = Textile
Q = Polyurethane

❺ Cable Type

U = Round, single-wire cable
R = Round, multi-wire cable
K = Fine wire for permanent installation
F = Fine wire for moveable cables
H = Extremely fine wire for moveable cables
Y = Tinsel wire

❻ Number of Wires

❼ Protected cables

G = With green-yellow wire
X = Without green-yellow wire

❽ Diameter of Cable Core in mm²

The right cable for every use:

VV
Standard version for normal use in dry conditions.
With insulated inner wire coating and outher cable casing made of flexible PVC.

RR
Standard version for durable use in dry conditions and for temporary outside use.
Inner wire coating and outer cable casing made of synthetic rubber.

V3 V3
BREMAXX®
N07 cable: For outside use
N05 cable: For temporary outside use.
Oil resistant. High mechanical loading capacity. Anti-freezing, remains highly flexible down to -35 °C.
Outer cable casing made of highly flexible special plastic.

RN
For long-term outside use.
Resistant against oils and acids. Inner wire coating made of natural or synthetic rubber. Outer cable casing made of neoprene.

SPECIAL ROBUST

International Protection Classes

Code letters International Protection	First index figure Foreign bodies protection	Second index figure Water protecion
IP	**6**	**8**

Index		Index	
0	No protection against accidental contact, no protection against solid foreign bodies	**0**	No protection against water
1	Protection against contact with any large area by hand and against solid foreign bodies with Ø › 50 mm	**1**	Protection against vertical water drops
2	Protection against contact with the fingers, protection against solid foreign bodies with Ø › 12,5 mm	**2**	Protection against diagonal water drops (up to a 15° angle)
3	Protection against tools, wires or similar objects with Ø › 2.5 mm, protection against solid foreign bodies with Ø › 2.5 mm	**3**	Protection against diagonal water drops (up to a 60° angle)
4	As 3, but Ø › 1 mm	**4**	Protection against splashed water from all directions
5	Full protection against contact, protection against interior injurious dust deposits	**5**	Protection against water (out of a nozzle) from all directions
6	Total protection against contact, protection against penetration of dust	**6**	Protection against ingress of water in case of powerful water-jets
		7	Protection against ingress of water in case of temporary immersion
		8	Protection against ingress of water in case of continuous immersion, requirements under agreement of user and manufacturer

Degrees of protection to IEC 529 EN 60529

IP 20 Protected against access to hazardous parts with a finger

IP 21 Protected against vertically falling water drops

IP 23 Protected against spraying water

IP 40 Protected against solid objects of 1 mm diameter and greater

IP 43 Protected against solid objects 1 mm and against spraying water

IP 44 Protected against solid objects 1 mm and against splashing water

IP 50 Dust-protected

IP 54 Dust-protected and protected against splashing water

IP 55 Dust-protected and protected against water-jets

IP 56 Dust-protected and protected against powerful water-jets

IP 65 Dust-tight and protected against water-jets

IP 67 Dust-tight and protected against temporary immersion in water

IP 68 Dust-tight and protected against ontinuous immersion in water

Guaranteed Top Quality
All electrical appliances are manufactured by Brennenstuhl according to strictest quality and safety rules. They correspond to the valid international regulations and are approved by an appropriate authority.

CABLEPILOT

The autopilot for cable reels.

Hands-free transport
Carry reels with ease with the **CABLEPILOT,** even if you don't have a hand free.

Practical to hang up
The **CABLEPILOT** lets you hang the cable reel securely from a scaffold or ladder.

Super fast, safe roll-up and roll-out
Perfect cable management even when the cable is reeled in quickly;
the **CABLEPILOT** keeps the cable on track.

Pendulum handle
Cable from the right or left - the **CABLEPILOT** is flexibly adaptable.

MADE IN GERMANY

Garant® S CEE 1 IP 44 Cable Reel
Practical and suitable for outdoor use, IP 44.

- Reel body made from rust-resistant and galvanised sheet steel fitted to a particularly sturdy galvanised steel tube frame.
- Innovative and ergonomic cable guide handle „cable pilot" for perfect cable-management during winding. Handle commutes on both sides and allows easy carrying and cable storage. For right and left handed easy to rewind.
- Rotary handle for comfortable rolling up.
- 1 CEE-plug 400 V/16 A,
  1 CEE-socket 400 V/16 A,
  with 2-way socket outlet 13 A BS with self-closing cover providing protection against dust and contamination.
- CEE-version, water-jet protected.
- RN cable is very robust, oil resistant and especially suited for professional use and on site.
- Earthed sockets connected to separate phases.
- With 3-pin safety cut-out and thermal overload protection.

MADE IN GERMANY · **CABLE PILOT** · SPECIAL ROBUST · IP 44 · SUPER-FLEX CABLE · 3 Years Guarantee

Garant® CEE 2 IP 44 Cable Reel for Site & Industry

For universal outdoor use and permanent use on sites, IP 44.

- Tested acc. to EN 61316.
- Reel body made from special plastic fittet to a galvanised steel tube frame.
- Innovative and ergonomic cable guide handle „cable pilot" for perfect cable-management during winding. Handle commutes on both sides and allows easy carrying and cable storage. For right and left handed easy to rewind.
- RN cable is approved to exacting site standards as per VDE 0100 part 704.
- CEE plug 230 V/16 A,
  2 CEE sockets 230 V/16 A.
- With single pole safety cut-off and overheating protection.

Garant® Bretec® Cable Reel
With the unique Bretec® Anti Cable Twist System for comfortable working.

- No more dangerous twisting of connected appliances when winding or unwinding.
- Reel body made from special plastic fittet to a galvanised steel tube frame.
- Innovative and ergonomic cable guide handle „cable pilot" for perfect cable-management during winding. Handle commutes on both sides and allows easy carrying and cable storage. For right and left handed easy to rewind.
- Rotary handle for comfortable rolling up.
- With 3-way socket outlet 13 A BS with self-closing cover providing protection against dust and contamination.
- With thermal cut-out protection against overheating or overload.

The one has got a Bretec; the other's got a mess.

With **Bretec®** non-turning socket system. Socket outlet remains stationary while reel body rotates. Prevents the cable of appliances connected from twisting while winding.

Automatic Rewind Cable Reel

Convenient automatic rewind.

- For fitting on walls and ceilings.
- Slewable up to 180°.
- Robust plastic housing.
- With safety cut-out.
- Childproof socket.
- For safe storage of the cable after use.
- Cable quality: - PVC cable or
  - rubber-neoprene (RN), robust, oil-resistant and especially suited for professional use.
- In colourful display-packaging.

Hanging Workshop Energy Cube
A height-adjustable power distributor with suspension facility.

• Housing made of break-resistant plastic.
• With double-sided, triple socket outlet 13 A BS and a hook for large tools.
• 3 m galvanised steel chain for hanging.
• With thermal cut-out protection against overheating or overload.
• 5 m connecting cable.

Safe-Box BIG IP 44

For extra safety when connecting cables, even outdoors, IP 44.

- Extra large Safe-Box for safe connection of plug and socket and to protect from damp.
- Ideal for particularly large plugs and sockets, especially larger export versions.
- Most suitable for use when camping, mowing the lawn, for seasonal or Christmas lighting, or when working with electrical equipment outdoors.
- Recommended as additional protection for small children as well.

Article No.	EAN-Code 4007123...	UP
1 16044 0	170784	10

Circuit Breaker Plug BDI-S 30 (RCD)

The ideal safety circuit breaker for connection to frequently used electrical appliances.

- Provides effective protection against electric shocks. Instantly disconnects the live lead from the mains as soon as residual current is present.
- 2-pole cut-out.
- In blister packaging.

With **Bretec®** non-turning socket system. Socket outlet remains stationary while reel body rotates. Prevents the cable of appliances connected from twisting while winding.

Garant® Bretec® 110 V CEE 2 Cable Reel

With the unique Bretec® Anti Cable Twist System for comfortable working.

- No more dangerous twisting of connected appliances when winding or unwinding.
- No more plugging in or out when moving the cable reel.
- Avoids unnecessary actions!
- With twin socket 110 V/16 A.
- Innovative and ergonomic cable guide handle „cable pilot" for perfect cable-management during winding. Handle commutes on both sides and allows easy carrying and cable storage. For right and left handed easy to rewind.
- With thermal cut-out protection against overheating or overload.

The one has got a Bretec: the other's got a mess.

Premium-Line 30.000 A
Extension Socket With Surge Protection
And USB-Charger

- Protection for your appliance from malfunctions in the mains, such as surges, indirect lightning strikes or circuit noises, with a maximum sum of leakage current of up to 30.000 A.
- Suppresses visual and acoustic interference in TV sets, video recorders and audio systems.
- Protects sensitive electronics from high frequency interference voltages.
- Light indicating surge voltage is active.
- Illuminated 2-pole safety switch.
- 2 USB-charging units.
- Total charging amperage of max. 2100 mA for quick reload.
- With replaceable 10 A fuse.
- Three-core arrangement protects phase, neutral and earth leads.

High quality overvoltage protectors with practical, well thought-out details.

8 7 5 3 2 1 4 6

1 Efficient interference filter, reliably suppresses HF interference through the use of special coils and capacitors, prevents video and audio interference.

2 Overvoltage protection display, indicates operating status of overvoltage protection.

3 High-capacity metal oxide varistors, with low response voltage for swift reactions and reliable discharge of excess energy.

4 Protected 230 V mains connections, high quality, 3-pole AC voltage protection by varistors and gas discharge tube, ensuring reliable power supply to your equipment.

5 Thermal security system, monitors all varistors for impermissible heating through overload and cuts out in time to prevent danger.

6 Earthed sockets with child protection, intelligent 45° arrangement.

7 Two-pole mains switch, (230 V/16 A) with integral operating status indicator light.

8 High quality mains lead, 3 m long with 3 x 1.5 mm^2 cross section, replaceable.

hugo! 19.500 A
Extension Socket With Surge Protection
Colourful, stylish, cool. With surge protection.

- Protects expensive devices from overloads with a max. surge current of up to 19.500 A.
- Optical function display for overload protection.
- Shapely and stable enclosure due to polished, highly break-proof polycarbonate.
- Illuminated 2-pole ON/OFF safety switch.
- With widely spaced sockets positioned at a 90° angle.
- Childproof sockets.
- With mounting facilities for wall installation.
- In blister packaging.

ENGINEERED IN GERMANY

Insurance cover for up to **5 million Euros** for personal injury and material damage within the framework of our product liability insurance.

Desktop-Power 13.500 A
Surge Protected Socket With USB-Hub 2.0 Splitter
with switch and surge protection

Indispensable extension socket on your desk, ideal to connect your laptop, including 4 USB-ports, as splitter (no chargers!)

- Protects expensive devices from overloads with a max. surge current of up to 13.500A.
- Polished surface.
- 4 USB-ports as splitter for e.g. memory stick, Bluetooth etc.
- Childproof sockets in a practical 45° arrangement.
- 1.8 m of connecting cable 13 A/240 V.
- 1.0 m connecting cable with USB-plug.
- With illuminated on/off safety switch.
- In blister packaging.

USB everywhere!
Nothing doing without power!

Sockets are becoming available again at last, thanks to integrated USB chargers.

Smartphones, tablets, cameras, power banks and the like are always hungry for power.
Most households use a large number of power packs and cables to satisfy that appetite.
Frequently, these use up all available sockets, making a free slot a scarce commodity.

Our new **multiple outlet strips with a powerful integrated USB charger** offer the perfect solution.

You can put them on or under your desk or workspace, with or without overvoltage protection - the choice is yours.
Our range even includes a version that can be concealed in the desk top.

What connects them all is the high USB charging current output of 5 V/max. 2,100 mA for fast charging and the 2 USB ports.

Premium-Alu-Line FB Extension Socket With Safety Fuse Button And USB-Charger
and „easy reset function" in case of overload
Extra H/D cable 3G1.5 mm² for high product safety.

- Advanced „fuse button reset function" eliminates time consuming plug fuse replacement. Simply resettable in case of overload.
- Attractive, timeless, sturdy housing made from aluminium with hardwearing, matt-finished surfaces.
- Hole suitable for hanging.
- Wall-mounting holes.
- Innovative and individual fixture system.
- Earthed sockets in a 45° arrangement.
- Excess cable can be wound around the housing.
- Extra robustness.
- Childproof sockets.
- Illuminated 2-pole ON/OFF safety switch.
- Packaging: Shrink-wrapped - for protection against dust and contamination.

Super-Solid-Line FB Extension Socket With Safety Fuse Button

and „easy reset function" in case of overload

Extra H/D cable 3G1.5 mm² for high product safety.

- Extremely sturdily constructed extension socket made from highly break-resistant polycarbonate.
- With illuminated 2-pole ON/OFF switch.
- Earthed sockets in a 90° arrangement, for angled plugs as well.
- The distance between the sockets allows the use of large charger units.
- With practical hanging facility.
- With childproof sockets.
- Special feature: cable output is fitted opposite the switch. Therefore, no surplus cable e.g. on the desk.
- Rubber pads prevent extension socket from slipping.

Premium-Line

MADE IN GERMANY

The Star Among Extension Sockets!
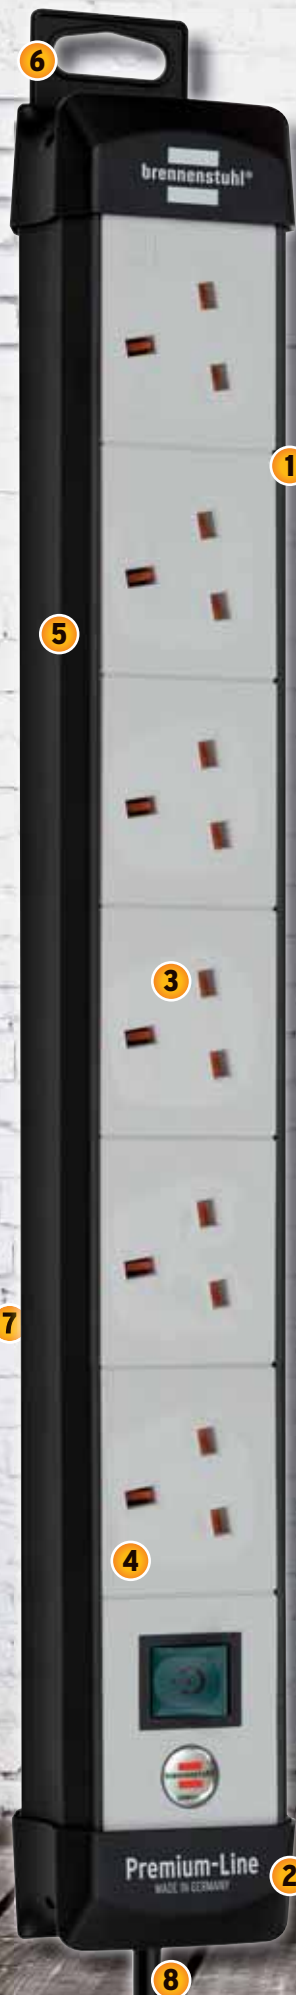

① Premium Quality
An exceptionally stable and welldesigned compact extension socket made of virtually unbreakable plastic. Meets the highest standards for products „Made in Germany"

② Exclusive Design
Elegant, slim, timeless, high-quality design.

③ Sockets
Earthed sockets with child proof in a 45º arrangement, also suitable for right-angle plugs.

④ Safe to Switch On/Off
Illuminated safety switch, 2-pole on/off.

⑤ Handy and Compact
Cable compartment for safe and tidy storage.

⑥ Innovative Mounting System
Removable mounting plate for quick and easy attachment.

⑦ Individual Mounting Options
Additional and handy straps for mounting with Velcro® tape, cable ties, etc. are located on both ends on the back.

⑧ High Quality Cable
Top-quality, safe cable.

Innovative Mounting System

180°

For Quick And Easy Attachment
The clever detachable mounting plate attaches quickly and easily on the back of the Premium-Line.
Simply detach the strap by pressing lightly on the detent. By turning the plate 180º and snapping it back into the extension socket the mounting holes can be positioned correctly for mounting.

Premium-Office-Line Extension Socket

For convenient connection of data processing/Video and audio sets directly with different appliances on the desk.

- Elegant, ageless desktop design made from extremely durable special synthetic material.
- Comfortable to directly plug-in and switch-on the desk.
- Earthed sockets in a 45° arrangement.
- Illuminated 2-pole ON/OFF safety switch.
- Childproof sockets.
- Packaging: Shrink-wrapped - for protection against dust and contamination.

Super-Solid-Line Extension Socket

- Extremely sturdily constructed extension socket made from highly break-resistant polycarbonate.
- With illuminated 2-pole ON/OFF switch.
- Earthed sockets in a 90° arrangement, for angled plugs as well.
- The distance between the sockets allows the use of large charger units.
- With practical hanging facility.
- With childproof sockets.
- Special feature: cable output is fitted opposite the switch. Therefore, no surplus cable e.g. on the desk.
- Rubber pads prevent extension socket from slipping.

6 + 1 LED Rechargeable Multi-Function Light
HL2 DA 61 M3H2
Multi-purpose, robust with excellent lighting capacity.

- 6 super-bright SMD LEDs on the front with more than 3 hours of lighting if the battery is fully charged.
- Additional switching stage for a SMD-LED light in the head.
- Charging time about 4 hours.
- Rubber-clad housing.
- Base foot can be folded up to 200° with an integrated magnet.
- 2 magnets on the back and two hooks that can be rotated 360° for flexible use.
- Integrated Li-Ion rechargeable battery 3.7 V/2.2 Ah with charging indicator.
- With ON/OFF switch.
- USB charging cable included.
- Packaged in a clear box with a 6" display.

6 LED Rechargeable Hand-Held Emergency Lamp HL DA 6 DM2H
with dynamo

- Light, anytime, even without a charged battery
- Option to charge the battery with integrated dynamo.
- 6 super bright SMD LEDs with up to 9 hours of light.
- Energy-saving mode: Light power can be reduced to 30 %.
- Rubber-clad housing.
- 360° adjustable hook and magnet.
- With integrated Li-Ion-battery.
- Inclusive 100 - 240 V AC, 50/60 Hz charger and 12 V charger for car cigarette lighter.
- In blister packaging.

Rechargeable LED Spot 10 W IP 54
Rechargeable work lamp for use indoors and outdoors, IP 54.

- Bright light, all the time, even in areas without an electrical connection.
- Splashproof.
- Equipped with integrated overcharge and total discharge protection and battery charging indicator.
- With ON/OFF switch.
- 2 regulating notchs: 100 % and 50 % light (safe energy).
- Powerbank function: USB charging port for devices with USB charging cables such as smart phones, MP3 players, GPS, etc.
- Charging via micro USB connection (5 V, 1 A), USB cable included.
- Casing made of die-cast aluminum, edge protection made of high-quality plastic.
- Impact-resistant and drop-proof up to 2 m.
- Stable, multi-stage, folding frame.
- With a robust matching bag for safe transport.
- This luminaire contains built-in LED lamps.
- Light unit not replaceable.

4 + 1 LED Rechargeable Clip-on Lamp HL DA 41 MC

Very easy to handle, robust with excellent lighting capacity.

- 4 super-bright Seoul SMD LEDs on the front with more than 3.5 hours of lighting when fully charged.
- Additional switching step for 1 CREE LED in the lamp head.
- Charging period approx. 3 hours.
- Clip with integrated magnet can be rotated 90°.
- Rubber-coated, ergonomic handle and carrying strap.
- Integrated Li-Ion rechargeable battery 3.7 V/1.6 Ah with charging indicator.
- With ON/OFF switch.
- USB charging cable included.
- In blister packaging.

2 + 3 LED Rechargeable Hand Lamp HL SA 23 MH

Manageable, compact and realiable.

- 2 extra-bright LEDs with special optics.
- Up to 2,5 hours of light ON time with fully charged battery.
- Additional switching stage for 3 x LEDs in the luminaire head with extra long light duration.
- Charging time about 2 hours.
- Adjustable up to +/- 90° with integrated magnet.
- 360° swivelled, retractable hanging hook.
- With integrated Li-Ion battery 3.7 V/650 mAh with charging indicator, overload and deep discharge protection, with USB charging interface.
- With ON/OFF switch.
- Inclusive 100 - 240 V AC, 50/60 Hz charger and 12 - 24 V charger for car cigarette lighter.
- In blister packaging.

Compact LED Light ML CN 130 1S V2 IP 54

For indoor and outdoor use, IP 54.
30 W mobile high-power Chip LED Light with extra-wide light diffusion to illuminate a large area.

- Low heat generation, no danger of injury.
- Chip LEDs have an extremely long lifespan, are shock-proof, maintenance-free.
- Solid aluminum housing with rubberized wrap for additional shock protection.
- Adjustable folding stand, also suitable for mounting on tripod 1 17061 0.
- Easily portable with carrying handle.
- Childproof socket with self-closing cover, water-jet protected.
- ON/OFF switch.
- In colourful display-packaging.
- This luminaire contains built-in LED lamps.
- Light unit not replaceable.

Mobile Rechargeable Battery LED Lamp Flexible ML CA 130 F IP 54

For indoor and outdoor use, IP 54.
Flexible use 30 W rechargeable lamp with integrated magnet.

- Bright light, all the time, even in areas without an electrical connection.
- Replaceable high-quality lithium-ion battery, charging time approx. 4.5 hrs.
- Equipped with integrated overcharge and total discharge protection and battery charging indicator.
- 2 regulating notchs: 100 % and 50 % light (safe energy).
- Powerbank function: USB charging port 2 A for devices with USB charging cables such as smart phones, MP3 players, tablets, etc.
- High power adapter (100 - 240V AC, 50/60 Hz, output 2 A) for a shorter charging time and 12 V car adapter cable included.
- Casing made of high-quality plastic.
- Stable, multi-stage, folding frame. The lamp can be standing, hung up, or mounted on metal surfaces with four strong, integrated magnets.
- Emitter can also be swivelled in the frame.
- With ON/OFF switch.
- In colourful display-packaging.
- This luminaire contains built-in LED lamps.
- Light unit not replaceable.

- Including high-power power supply unit (100 - 240 V AC, 50/60 Hz, output 1.5 A) for short charging time and 12 V vehicle charger cable.
- Casing made of high-quality plastic.
- Stable, multi-stage, folding frame. The lamp can be standing, hung up, or mounted on metal surfaces with four strong, integrated magnets.
- Emitter can also be swivelled in the frame.
- With ON/OFF switch.
- In colourful display-packaging.
- This luminaire contains built-in LED lamps.
- Light unit not replaceable.

Mobile Rechargeable SMD LED Light ML DA 2407 IP 54

For indoor and outdoor use, IP 54.

- Bright light, all the time, even in areas without an electrical connection.
- Replaceable Li-ion battery, charging time approx. 3 hours.
- With integrated overcharge/deep discharge protection and battery level indicator.
- With on/off switch and two brightness settings (50 %/100 %).
- 1.0 A USB charging connection for devices with USB cables, such as smartphones, MP3 players, navigation systems, etc.
- Includes high-power power supply (100 - 240 V AC, 50/60 Hz, 1.5 A output) for shorter charging time and 12 V - 24 V car charger cable.
- Housing made of die-cast aluminium and high-grade plastic.
- Stable tubular steel frame with non-slip rubber feet.
- In colourful display-packaging.
- This luminaire contains built-in LED lamps.
- Light unit not replaceable.

Chip LED Light L CN 1200 IP 65

For installation indoors and outdoors, IP 65.
High-power Chip LED Light for wall installation, with extra-wide light diffusion
to illuminate a large area.

- Illuminates house entrances, garages, courtyards, halls, etc.
- Low heat generation, no danger of injury.
- Chip LEDs have an extremely long lifespan, are shock-proof, maintenance-free.
- Die-cast aluminium casing.
- With safety glass.
- Adjustable mounting bracket.
- In colourful display-packaging.
- This luminaire contains built-in LED lamps.
- Light unit not replaceable.

Power LED Lamp L2705 IP 44

For indoor or outdoor installation, IP 44.
With 27 x 0,5 W power LEDs for lighting large areas.

- Ideal for illuminating entry areas, driveways and carports.
- Low heat generation, no danger of injury.
- LEDs have a very long lifespan, are shock-proof and maintenance-free.
- Housing made of aluminium, powder-coated.
- Spotlight can be rotated and locked.
- Cover made of break resistant plastic.
- In colourful display-packaging.
- This luminaire contains built-in LED lamps.
- Light unit not replaceable.

Power LED Lamp L2705 PIR IP 44
with PIR sensor

For indoor or outdoor installation, IP 44.
With 27 x 0,5 W power LEDs and motion detector.

- Ideal for automatically lighting entryways to houses, garages, footpaths, etc. as well as for preventing break-ins and theft.
- Low heat generation, no danger of injury.
- LEDs have a very long lifespan, are shock-proof and maintenance-free.
- Motion detectors have a range of approx. 10 m, detection angle of approx. 130º.
- Duty cycle adjustable between 10 sec. and 4 min.
- With twilight and sensivity switch.
- Housing made of aluminium, powder-coated.
- Spotlight can be rotated and locked.
- Cover made of break resistant plastic.
- In colourful display-packaging.
- This luminaire contains built-in LED lamps.
- Light unit not replaceable.

Unbelievably long-lasting
With an LED useful life of 50,000 h, it is not necessary to replace the lamp. They convince in terms of their processing with the high-quality, textured surfaces and the solid aluminium bodies of the spotlights & lamps.

Best illumination
Smart designs and high-power reflectors ensure sophisticated distribution of light.
Due to the easy installation, all spotlights and lamps can be attached at the desired location in the blink of an eye.

Environmentally friendly
80 % lower energy consumption in comparison to conventional lamps.

Simply safe
Maximum diffusion of light with low heat development makes our LED spotlight and lamp programme absolutely safe.

Easy to mount:
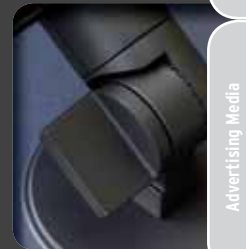

LED Spot Premium City SH 8005 IP 44

For interior and exterior wall mounting, IP 44.
With 80 x 0,5 Watt high power LEDs.

- Easy to mount thanks to the power connection provided on the mounting bracket. Simply insert the light or spotlight into the bracket after mounting.
- Solid and modern aluminium casing.
- Light can be swiveled vertically and locked.
- 80 bright LG high performance LEDs.
- This luminaire contains built-in LED lamps.
- Light unit not replaceable.

PIR Motion Detector PIR 240 IP 44

Automatically switches lamps on and off (incandescent, halogen, energy-saving bulbs and LED lamps) when someone enters the detection zone.

• For indoor and outdoor use, IP 44.
• Detection angle 240°. Max. range 12 m.
• Duty cycle adjustable between 10 sec. and 4 min.
• Response brightness adjustable from 10 to 150 lux.
• Switching capacity max. 1000 Watt (bulbs), max. 300 Watt (energy-saving lamp), max. 100 Watt (LED).
• Adjustable vertically and horizontally.
• With corner attachment.
• In colourful display-packaging.

Solar LED Spot SOL 80 ALU IP 44
with PIR sensor
In a stylish aluminium casing.
For outdoor use, IP 44.

- Solar LED spotlights can be used independently of the power grid because they generate their own environmentally friendly solar electricity.
- Solar LED light with PIR sensor and separate solar module
- Spotlight and solar module in a compact, well-designed aluminium casing.
- 8 high performance LEDs for illumination of large areas.
- Pivoting solar lamp.
- PIR sensor with max. 130° detection angle and max. range 10 m.
- Switch-on time adjustable to a max. of approx. 1 minute.
- Response intensity adjustable by a twilight switch.
- Sensitivity adjustable.
- 3 rechargeable and exchangeable NiMH Mignon AA batteries included.
- With integrated overcharge and total discharge protection to ensure continuous charging of the batteries.
- Light ON time is approx. 110 minutes with fully charged batteries.
- Battery capacity: 2,200 mAh.
- In colourful display-packaging.

Solar LED Light SOL 80 Plus IP 44
with PIR sensor
Practical and suitable for outdoor use, IP 44.

- Solar lamp with PIR sensor and separate solar module.
- 8 very bright LEDs for illumination of large areas.
- Pivoting solar lamp.
- Pivoting PIR sensor with max. 180° detection angle and max. range 12 m.
- Switch-on time adjustable to a max. of approx. 1 minute.
- Can operate independent of the mains.
- Response intensity adjustable by a twilight switch.
- Sensitivity adjustable.
- With integrated over-charge and totaldischarge protection.
- Operating time of approx. 2 h with fully loaded rechargeable battery.
- Power jack for rapid charging using power supply unit (not included) 12 V DC, min. 400 mA, hollow plug 5.5/2.1 mm, inside positive.
- Inclusive of lead-gel battery.
- In colourful display-packaging.

Solar LED-Spot SOL 2x4 IP 44
with PIR sensor
Practical and suitable for outdoor use, IP 44.

- Easy to mount. Simply insert the light or spotlight into the bracket after mounting.
- Free and environmentally friendly charging with solar energy.
- Can operate independent of the mains.
- Solar lamp with PIR sensor and separate solar module.
- 8 high performance LEDs for illumination of large areas.
- LED spot horizontal and vertical slewable.
- Infrared sensor with max 130° angle of reach (horizontal) and max. of 8 m of surrounding.
- Duty cycle adjustable between 10 sec. and 60 sec.
- Response intensity adjustable by a twilight switch.
- 3 rechargeable and exchangeable NiMH Mignon AA batteries included.
- Light ON time is approx. 90 minutes with fully charged batteries.
- Battery capacity: 1.800 mAh.
- In colourful display-packaging.

Smoke Detector RM L 3100

Particularly suitable for long-term use.

- VDS tested according to DIN EN 14604.
- Smoke detector with quality seal „Q", complies to the increased demands of regulations 14-01 vfdb.
- With approved long-life cycle and reduction of false alarm signals.
- Increased stability against outer effect.
- 10 years of operational life without changing battery.
- 3 V lithium battery fixed in devices for constant operational readiness.
- Optical function display, with test button for the functional check.
- Includes mute function for false alarm and „Do not disturb function" for low battery level.
- Shrill alarm - 85 dB.
- Optical and acoustic signal when the battery is low.
- Includes mounting materials.
- In colourful display-packaging.

Multifunction Detector WMV Plus

Metal/voltage/beam detector

- For locating metal, voltage-carrying cables (AC voltage) and wooden beams, e.g. in walls.
- 3 functions on one appliances, functions can be individually applied.
- Accurate display of the measurement result on a large LCD display (numerical and by bar charts) as well as acoustically.
- Automatic sensivity control.
- Automatic switch-off after end of the measurement.
- Battery low voltage display.
- Battery compartment for 9 V block (delivered without battery).
- User friendly through the operating button on the side and front. Ergonomic design.
- Maximum detection: wood up to 40 mm, AC voltage approx. 30 - 50 mm, metal approx. 50 - 80 mm.
- In blister packaging.

Telescopic Aluminium Ladder
The variable lightweight ladder for universal applications.

- Can be used as a straight ladder or a stepladder, and this also on stairs or uneven surfaces.
- The well proven brennenstuhl® hinges enable the ladder to be modified from a straight ladder to a stepladder within a few seconds.
- Easy and safe rung-by-rung height adjustment.
- Equipped with non-slip rubber feet.
- Exceptionally compact for easy transporting and storage.
- Side rails and rungs of aluminium.

MAX. 150 kg

Article No.	EAN-Code 4007123...	UP	Rungs	Height of stepladder	Length of ladder	Transport dimensions: length x width x depth	Weight appr.

Aluminium Stepladder with Work-Tray
The extra-light and reliable aluminium ladder with a big work-tray (approx. 28 x 11 cm) for any kind of tools, etc.
Saves time and unnecessary climbing up and down.

60 cm

- Exceptional firm positioning by wide, ribbed rungs (with extra safety straps for the versions larger than 6 steps).
- A combination of high-quality aluminium profiles and expert workmanship guarantees prolonged serviceability and safety.
- High safety rail (60 cm).
- Compact for easy transporting and storage.

From digital
to reality!

3D shelf planning

We offer you a quick and free option for planning shelf walls.
With our 3D shelf planner, we arrange and visualise your individual assortment for you as a sales wall.

This way you get a realistic impression of the assortment at the P.O.S. The exact placing coordination for the stockers, the exact numbered amounts to be hung and product values are, so to speak, delivered all in one work process. That guarantees absolute certainty in planning and transparency and promises good sales and revenue - directly from the start.

Configure your shelving dimensions quickly and easily.

Display your products together as a range.

Rearrange and swap around your products in a matter of minutes.

Your made-to-measure shelving program awaits you. It is really efficient, as your valuable sales space will be allocated perfectly.

Tailor-made to the last detail
- simple and effective!
